---

- Python
- R
- Java
- CSS + HTML
- SQL
- JavaScript

## About Me

---

Fourth year student at the University of Toronto, with a 1.5 year co-op term as a software engineer. Currently seeking to gain more work experience by taking a year or two off from university, before returning to study part time. Proficient with a handful of Computer Science and Statistical programming languages, with an emphasis on Python, Java and R, but also exceptionally well-versed in Windchill PDMLink.

## Work Experience

---

May 2020 - December 2021

Terrestrial Energy  
Co-op Software Engineer

- Designed and set up a ticketing system for company-wide support
- Worked with each department to create robust product lifecycles and flowcharts, implementing them through Windchill PDMLink
- Held and ran meetings with team leaders to ensure that software capabilities were known
- Utilized Java to carry out advanced routing and logic in Windchill

June 2017 - September 2018

Metro Inc  
Grocery Clerk

- Stocked shelves with FIFO principles
- Assisted customers with price checking and item location
- Kept displays neat, and placed popular items in areas where they were easily accessible and noticeable
- Helped around the store when needed
